

DISASTER PREPAREDNESS SEMINAR

BRINGING HOPE TO AMERICA'S FAMILIES

DISASTER PREPAREDNESS SEMINAR

The DPS is a one-day course designed to equip individuals and local churches to be better prepared and ready to mobilize within their own community in response to a disaster.

We want to give you the physical, emotional and spiritual tools so that you aren't just taking care of you - but are ready and able to make a profound impact on your community during their time of greatest need.

DPS COURSE CONTENT

Personal Preparedness

Shelter in place for 72 hours so you can take care of your family and then be in a position to help your neighbors.

Church Preparedness

Meet the needs of your staff and congregation in order to be uniquely positioned to serve and minister to the community during times of crisis. Develop a plan of action to reach out by providing food, supplies, shelter or volunteer teams to assist your community.

Community Intergration Preparedness

Learn how to connect with local emergency personnel and build relationships with those in authority so that when crisis comes, you and your church can be a resource and support to community leaders.
